In re Reissue Application of:

Tomowaki TAKAHASHI

U.S. Patent No.: 5,805,334

Group Art Unit:

Issued: September 8, 1998

Examiner:

For: CATADIOPTIC PROJECTION SYSTEMS

**REISSUE APPLICATION DECLARATION UNDER 37 C.F.R. § 1.175**

Assistant Commissioner for Patents  
Washington, D. C. 20231

Sir:

I, Tomowaki TAKAHASHI, declare that:

1. My residence, post office address and citizenship are as stated below next to my name.
2. I believe I am the original, first inventor of the subject matter which is described and claimed in U.S. Letters Patent No. 5,805,334 ("the '334 patent") granted on September 8, 1998, and for which invention I solicit a reissue patent on the invention entitled CATADIOPTIC PROJECTION SYSTEMS, the specification of which is attached hereto.
3. I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims as amended in the attached reissue application.

4. I acknowledge the duty to disclose to the U.S. Patent and Trademark Office all information known to me which is material to patentability as defined in Title 37, Code of Federal Regulations, Section 1.56.

5. I hereby claim priority benefit under Title 35, United States Code, Section 119(a)-(d), of Japanese patent application no. 8-149903, filed May 20, 1996.

6. I believe the original '334 patent to be wholly or partly inoperative or invalid by reason of claiming more or less than I had the right to claim in the patent.

7. With respect to broadening the claims, one error being relied upon as the basis for the reissue is that issued claims 1 and 10 are unduly narrow in reciting a catadioptric projection system comprising a first imaging system comprising single-pass and double-pass lens groups, with the specific path of the light traveling through the first imaging system specified. Accordingly, claim 27 has been drafted without these unduly narrow limitations to recite "a catadioptric imaging optical sub-system comprising an optical group to form an image of the pattern, the optical group comprising a concave mirror with a first optical axis" to remove the unnecessary groupings.

8. All errors, including those listed above, which are being corrected up to the time of filing of this reissue declaration arose without any deceptive intention on the part of the applicant (37 CFR §1.175(a)(2)).

9. I hereby appoint the attorneys and/or agents of Staas & Halsey LLP under USPTO Customer No. 21,171 to prosecute this application and to transact all business in the Patent and Trademark Office connected therewith.

Please send all correspondence related to the above-identified application to the following address:
